

Education Law and the Courts

Education Law and the Courts is a high level practitioner text which details the litigious remedies available to challenge educational decisions in the wide range of courts and tribunals through which a case can be brought. With the increased willingness of parents, teachers and pupils to resort to litigation it provides a definitive treatment of the subject, including primary, secondary and tertiary education, special educational needs tribunals, judicial review and damages. * Coverage of the rights and remedies available to the litigant in all types of education appeal * Detailed analysis - including unreported cases * Written by a well-known team of specialist barristers
