

Juxtapoz Dark Arts

This book is all about an art form that aims to be unsettling and has its roots in the 20th Century. Some people make a connection between dark art and gothic subculture, others simply associate it with the metaphysical, the disturbing or the nightmarish. However you perceive it, this art form is now part of mainstream culture and is becoming ever more popular. It can be found in all sorts of media including advertising, television, and film. This collection of works compiled by Juxtapoz features today's most talented dark artists, all of whom create a certain mood or emotion in their work that is uniquely theirs. Some are especially lush in detail and color such as those by Wendy Cogan-Toyoda; others more minimalist such as Irana Douers hidden treasure nudes. Artists featured include Cleon Peterson, Richard Colman, Seonna Hong, Marci Washington, Caroline Hwang, Alex Pardee, Suzanne Sattler and more.
