

## Securities Regulation in the Netherlands (Loeff Legal)

This booklet contains recent rules and regulations in the sphere of securities, offering you a complete overview of Dutch securities law up to today. You are provided with all the relevant information concerning securities regulation without hindering you with unnecessary details and long explanations. In the first chapter the introduction, the securities market, sources of security law and EC harmonisation efforts in the sphere of securities are discussed. The rest of the chapters are devoted to regulation of public offerings, publicly held companies, the securities business and investment undertakings. The final and sixth chapter deals with antifraud provisions against insider trading and market manipulation.
