

A Journey to the End of the Millennium - A Novel of the Middle Ages

In the year 999, when Ben Attar, a Moroccan Jewish merchant, takes a second wife, he commits an act whose unforeseen consequences will forever alter his family, his relationships, his business-his life. In an attempt to forestall conflict and advance his business interests at the same time, Ben Attar undertakes his annual journey to Europe with both his first wife and his new wife. The trip is the beginning of a profound human drama whose moral conflicts of fidelity and desire resonate with those of our time. Yehoshua renders the medieval world of Jewish and Christian culture and trade with astonishing depth and sensuous detail. Through the trials of a medieval merchant, the renowned author explores the deepest questions about the nature of morality, character, codes of human conduct, and matters of the heart.
