

California Divorce: Plain and Simple: Save Your Wallet, Save Your Sanity

Don't just do it yourself get it done. This book is for couples in California who know they want a divorce but also know they don't want to spend any more time and money than they have to. This book is written by attorneys for the average couple with a little humor thrown in to remind them that this time in their lives is not forever who just wants someone to tell them what they need to do to get a divorce without a lawyer, or whether their circumstances are so complex that they should get one. This book educates you on what decisions you have to make, how to write them into a Marital Settlement Agreement, and what steps you have to take to do the paperwork and make it final.

Check the box and move on. A divorce in California does not have to be a trial by fire. Many couples have done their own divorce. Keep your wallet, keep your sanity.
