

Annual Index to Motion Picture Credits 1982.

The Annual Index to Motion Picture Credits covers films eligible for the Academy Awards, as well as other films, released in the Los Angeles area, which do not meet the Academy's requirements. Each film entry includes title, production and releasing companies, approximate completion date, running time, MPAA rating, producer, director, art director, cinematographer, film editor, costume designer, sound, music, writers, and cast. In addition to the complete entry, many elements are indexed: by ten major crafts (actors, art direction, cinematographers, costume designers, directors, film editors, music, producers, sound, and writers) showing individual name and films; by releasing company; by individual name with reference to the craft and film; and by character name. Choice magazine described an earlier edition of the Annual Index to Motion Picture Credits as well done. Recommended for all large libraries.
