

Bamboo People

Bang! A side door bursts open. Soldiers pour into the room. They're shouting and waving rifles. I shield my head with my arms. It was a lie! I think, my mind racing. Girls and boys alike are screaming. The soldiers prod and herd some of us together and push the rest apart as if we were cows or goats. Their leader, though, is a middle-aged man. He's moving slowly, intently, not dashing around like the others. Take the boys only, Win Min, I overhear him telling a tall, gangly soldier. Make them obey. Chiko isn't a fighter by nature. He's a book-loving Burmese boy whose father, a doctor, is in prison for resisting the government. Tu Reh, on the other hand, wants to fight for freedom after watching Burmese soldiers destroy his Karenni family's home and bamboo fields. Timidity becomes courage and anger becomes compassion as each boy is changed by unlikely friendships formed under extreme circumstances. This coming-of-age novel takes place against the political and military backdrop of modern-day Burma. Narrated by two teenagers on opposing sides of the conflict between the Burmese government and the Karenni, one of the many ethnic minorities in Burma, *Bamboo People* explores the nature of violence, power, and prejudice.
