

Internet Law in a Nutshell (Nutshell Series)

The book begins with a review of the history, technology, and competing theories of the Internet that enables a deeper understanding of case law and statutory developments discussed in the substantive chapters. The book covers the history of the Internet to the rapidly evolving Web 3.0, competing theories of Internet governance, cyber jurisdiction and enforcement of judgments, choice and conflicts of law, cybertorts, online contracting and licensing, the protection of online intellectual property assets, the protection of online privacy, criminal liability for Internet activity, and European Community Directives such as the E-Commerce Directive, Brussels Regulation, and Rome I Regulation.
