

## Neil M Gunn & Lewis Grassic Gibbon

This full-length introductory study, first published in 1983, compares and contrasts these two writers. After setting Gunn and Gibbon in the context of the Scottish Renaissance - arguably, says Douglas Gifford, one of the richest periods of all Scottish Literature - it goes on to give an overview of each writers work as a whole. This leads to detailed examination of their two most widely known works, Gunns *The Silver Darlings* and Gibbons *A Scots Quair*. The author shows how these two outstanding examples of the novelists art, while providing plentiful examples of the qualities and similarities, yet epitomise their essential differences - Gunns positive hope and Gibbons negative despair.
