

Hair and Justice: Sociolegal Significance of Hair in Criminal Justice, Constitutional Law, and Public Policy

Hair and Justice discusses criminal acts, deviance, rebellion, and power in contexts demonstrating that hair is an intricate and important issue and piece of evidence in criminal justice, constitutional law, and public policy. The book demonstrates that the significance of hair in society is relative, in flux, and constantly being debated. The text argues that members of a culture and society share perceptions about hair that may be misunderstood or judged by outsiders and authorities. The book presents dozens of cases in which eyewitnesses have described perpetrators and defendants hair. However, eyewitness testimony is often unreliable and the value given to it may conflict with or further shape the extent to which society will tolerate misunderstandings or misperceptions about hair. Major sections include: religion; evidence; institutions; head shaving; gangs; animals; authority and power; crimes; Fourth Amendment; regulation, codes, and licenses; politics; and education. This very unique book will be a valuable resource for students and professionals in sociology, law, law enforcement, psychology, gang studies, criminal justice, criminology, social science, public administration, and related areas of study.
