

Brokeback Mountain (American Indies)

Since its release in 2005, *Brokeback Mountain* became a major cultural event and a milestone in independent American filmmaking. Based on the short story by Annie Proulx and directed by Ang Lee, *Brokeback Mountain* situated a love story between two closeted cowboys at the heart of American mythology, film spectatorship and genre. *Brokeback Mountain* offered an independent and queer revision of the conventions and clichés of the western and the melodrama through a studied exploration of homophobia and the closet. This book examines *Brokeback Mountain* in relation to indie cinema, genre, spectatorship, editing, and homosexuality. In doing so it brings film studies and queer theory into dialogue with one another and explains the importance of *Brokeback Mountain* as both a contemporary independent and queer film.
