

Spike Lee: Thats My Story and Im Sticking To It

Kaleem Aftab's authorised biography of Lee chronicles his film work in definitive detail, but also explores the many social issues and controversies that the work has addressed and generated; also the inspirational affect Lee has had upon his own and subsequent generations of black film-makers (he gave Halle Berry her first break, and early lead roles to Denzel Washington and Samuel Jackson). Every one of Lee's films has tackled a subject and caused a stir: from female sexuality in *She's Gotta Have It* to New York race riots in *Do the Right Thing* and jazz in *Mo' Better Blues*; interracial sex in *Jungle Fever*; revolutionary pan-Africanism in *Malcolm X*; the War on Drugs in *Clockers*; Louis Farrakhan's Million Man March in *Get on the Bus*; black poverty and pro-basketball in *He Got Game*...As such Lee has made himself a spokesman on US race relations, but he is also an entrepreneur and a provocateur. This biography, prepared with Lee's co-operation and with input from his friends, family and collaborators, tells the extraordinary life story of a true American original.
