

## The Blue Mountain

The Blue Mountain is the first novel by one of Israel's most important and acclaimed contemporary writers and as with all his writing is a virtuoso example of Shalev's skill as a storyteller. Published to outstanding reviews all over the world, its publication in Britain re-affirms his reputation as a major international writer. Set in a small rural village prior to the creation of the State of Israel, this funny and hugely imaginative book paints an extraordinary picture of a small community of Ukrainian immigrants as they succeed in pioneering a new life in a new land over three generations. The Blue Mountain transcends its time and place by touching on issues of universal relevance whilst never failing to entertain and engage the reader. As with *Four Meals*, the writing is lyrical and of exceptional quality and illustrates why Shalev has been steadily winning over an ever-increasing number of fans worldwide.
