

Crazy Pineapple 8b Poker

Crazy Pineapple 8b Poker covers the rules, strategies and review examples one needs to play this insane version of poker. A popular home game among enthusiasts, Crazy Pineapple 8b is a hi/lo split game meaning that the person with the highest hand splits with the person with the lowest hand (with the 8b standing for Eight or better - eight being the highest card allowable for a low hand). The game is played initially with three cards unlike Texas Holdem which starts with two. One card is discarded after the flop. The book also briefly covers Omaha 8/b, Pineapple and Tahoe. The author, Kim Greenblatt, a technical specialist and poker hater (though he is pretty good at it), has written the popular book, Practical Low and No Limit Texas Holdem Ring Games. Readers of that book wrote in and asked him to write a book on this nutty variation of poker that is still played in some casinos and card clubs. Part of the proceeds from the sales of this book will go to finding a cure for Rett Syndrome.
