

# A Discussion on the Degree of Autonomy of Arbitration in View of the Involvement of Court System

This is an ebook of my dissertation written for my Master of Law degree specialized in International Commercial Law awarded by University College London in 2013. My Master of Laws dissertation is about International Arbitration with focus on discussing the Autonomy of Arbitration by: (1) comparing Arbitration with Litigation and Mediation and discussing the involvement of the Court in these dispute resolution mechanisms; and (2) comparing the Arbitration Regimes of two Common Law Jurisdictions, namely, United Kingdom and Hong Kong, so as to have a glimpse of the future trend of the development of Arbitration.
