

326 Questions To Help You Pass Your Massage Boards

This study guide was prepared with the student in mind. The questions are broken down into small fifty question segments, so you can go at your own pace. The questions are given in random order just like you can expect when you take your boards. Study, study study, and then study a bit more. Note what subject matter you still need to study. If you see that you are weak in an area, go back to the basics and re-read your massage text book. After you study and you are ready to take your test, leave time before your test to ensure you are not rushed, you are well nourished and on time. Knowing your subject matter is the best way to be prepared for the test. As you take the test, take your time. Read each question twice before giving an answer. Watch for trick wording such as always, or never. Translate the question into your own words to fully understand what is being said. You can flag the questions you are unsure of and review them at the end of the test. When I took my Nationals, two of the questions I flagged actually answered themselves. Feel free to contact me with your comments or suggestions. kimberliridgeway@gmail.com Thank you and Good Luck! Kimberli Ridgeway, D.N.H. This study guide is not associated with the National Certification Board for Therapeutic Massage and Bodywork, nor is it associated with the MBLEx Exam.
