Este libro es un recopilatorio de juegos y efectos de ilusion que tiene como centro de interes vasos, recipientes, jarras, etc . . . Esta destinado a los amantes del ilusionismo, sobretudo a los que no son expertos, aunque no se olvida de los que ya tienen una buena base de conocimientos ni de los profesionales en el tema. Dividido en cuatro apartados, hay efectos con vasos normales, sin ningun tipo de preparacion; con recipientes previamente preparados; efectos para profesionales y efectos con ayuda de productos quimicos. Los lectores comprobaran como el vaso, ese recipiente definido como pieza concava para contener algo es capaz de contener, ademas, una gran capacidad para maravillar y sorprender.
