

## Edith Whartons Brave New Politics

Most critics claim that Edith Whartons creative achievement peaked with her novels *The House of Mirth* and *The Age of Innocence*, dismissing her later fiction as reactionary, sensationalistic and aesthetically inferior. In *Edith Whartons Brave New Politics*, Dale M. Bauer overturns these traditional conclusions. She shows that Whartons post-World War I writings are acutely engaged with the cultural debates of her day - from reproductive control, to authoritarian politics, to mass culture and its ramifications.
