

Evidence Law Adrift

In this important book, a distinguished legal scholar examines how the legal culture and institutions in Anglo-American countries affect the way in which evidence is gathered, sifted, and presented to the courts. Mirjan Damaska focuses on the significance of the divided tribunal (between judge and jury), the concentrated character of trials (day-in-court justice), and the prominent role of the parties in adjudication (the adversary system). Throughout he contrasts the Anglo-American system with civil law justice, where lay fact finders sit with professional judges in unified tribunals, proceedings are episodic rather than concentrated, and the parties have fewer responsibilities than in the common law tradition.
