

Questionable Ethics: A Mel Addison Mystery (Mel Addison Mysteries)

The daughter of a cop growing up in a small town with three brothers . . . nobody was surprised Mel was a bit--untamed. She left all that when she married and moved to the big city. But after a traffic accident claimed the lives of her husband and child, Mel returned home for the emotional support of her family and a familiar place to get through the grief. Her first day on the job answering phones at her brothers office as a favor gets her a gun in the face. Welcome home! Thats the start of an unusual crime spree and only Mel has the info, the luck, and the spunk to tie the separate pieces together and uncover the truth behind the murders and mayhem. She may have come home looking for peace and time to heal, but if adventure and mystery come knocking--well, Mel Addison is ready and willing to play. The crimes may be the easy part, though. Theres a new cop in town with an eye for Mel and her own heart cant seem to decide what to do.
