

How To Play Poker Every Day And Survive!!!

HOW TO PLAY POKER EVERY DAY AND SURVIVE!!! is written for the poker player who loves to play, but would rather WIN than LOSE. Texas Holdem has become the most popular poker game played in the world today. Many players enjoy playing regularly, if not daily, in their local card casino or with friends, but wonder why they rarely win. Is it really Bad Luck, Bad Draws or Drawn-out on Again? This book covers basic techniques that the average player can use to improve their gaming skills and promote long-term regular WINS. This book discusses the game at many levels and situations, but focuses mainly on open table play in a card casino environment, with bonuses of three chapters on tournament play and two on Omaha. It assumes that you have a basic knowledge of poker, Texas Holdem and card odds. This is not intended to be a technical treatise on probabilities, but a practical discussion of how to play in varying situations to improve your winnings. ABOUT THE AUTHOR - I have played poker in limit and no limit games for many years. Since I retired about three years ago, I have worked as a Poker Proposition Player at a very popular card casino in Southern California. As a Prop, I use my own moneywin or lose. I am dealt a lot of hands each day, week and month. I have to be a winner overall to survive. I dont expect to win every day and actually average my wins and losses month by month to evaluate my performance. You too can play every day and survive as I do!!

COMMENTS FROM GUITAR MAN: Great stuff. Youve carved out a unique and powerful niche for yourself as a kind of poker pro for the rest of us. I think your readers will be fascinated. You take them from I wish I could do that to I think I could do that.
