Martial law is a very serious thing that is in the discussions of today's most current politicians as well as in the discussions between the most well-known conspiracy theorists. What happens if you just provided the evidence and the proof needed to declare that the United States government may potentially be carrying out martial law? This book analyzes the official unclassified document and the statements made in regards to the 2015 military exercise that includes the killing of dissidents. Find out what this military exercise is factually about, and then from that you can determine if the Jade Helm project is fact or fiction.
