

Make Your Own Medical & Financial Powers of Attorney (Estate Planning)

A power of attorney is a legal document that allows you appoint someone to make medical, financial and legal decisions on your behalf. Under a power of attorney, you can give your agent either general authority or limited authority. With general authority, your agent will be authorized to act as your authorized representative in relation to the whole cross-section of your legal and financial affairs. With limited authority, your agent is given authority in relation to the specific matters only - such as real estate, banking, or virtually any other matter. Both limited and general powers of attorney can also be classified as either ordinary or durable. Ordinary powers of attorney come to an automatic end if you become mentally incapacitated. Durable powers of attorney, on the other hand, do not come to an end when you become incapacitated (and often only commence when you become incapacitated) and should therefore form an integral part of your estate plan. It is also possible to make a healthcare power of attorney under which you can appoint someone to make medical decisions on your behalf if you are unable to do so. It also allows you direct what treatments and procedures you are willing or unwilling to accept. If you fail to make a durable power of attorney for finance and property your family may be legally helpless to manage your property and your assets. Also, by failing to make a healthcare power of attorney, you could end up receiving unwanted medical treatments. Enodares lawyers have created a simple book to help you make a power of attorney for any occasion. Its called Make Your Own Medical & Financial Powers of Attorney. It provides you with step-by-step instructions, detailed information and all the forms necessary to ensure that your legal, financial and medical affairs can be managed during any period in which you are unable to do so yourself. This is a must have for anyone serious on having a

complete estate plan.
