

Eliza and the Raptor

The only crime Third Lieutenant Eliza committed was stealing a few precious minutes of her patrol to pleasure herself. On the Fcm Quantor, where reproduction occurred in test tubes, an active libido was discouraged, and self-pleasuring was tantamount to treason. Her superior officers blamed her genes, the Midoze genetic line, though it had served the ship for seventy-three generations. To prevent her from destroying the moral sanctity of the crew, she was threatened to a life of hard labor if she couldn't control her sexual urges. And then, in the midst of her personal hell, she met Fleet Master Kraken, a sentient raptor who was more interested in watching her pleasure herself than he was in racial purity. Before she knew it, she was pulled into his games of love, war, and rough sex. *Eliza and the Raptor* is a pulp science-fiction erotica set in a world of hard science, horny sentient dinosaurs, and just a hint of cross-species fantasy.
