

## Haunted People: True Encounters with the World Beyond

Paranormal expert Hans Holzer investigates the strangest cases of possession—the rare and disturbing instances when a ghost attaches itself to a living person. Professor Hans Holzer explores the chilling phenomenon of possession: when a ghost is not yet ready to pass on to the next stage and thus inhabits a living person. These cases are not nearly as common as haunted houses or places, but do occur. In *Haunted People*, Holzer investigates chilling reports of ghosts who have attached themselves to living hosts.
