

Securities Regulation: Selected Statutes, Rules & Forms (Academic Statutes)

This abridged version of the text is ideal for instructors who do not require the comprehensive treatment in the standard edition. The abridged version contains sufficient materials for most introductory securities regulation classes. The standard edition contains the latest Securities and Exchange Commission rulemaking, including its new executive compensation disclosures, which are not available in many statutory supplements. The text is comprehensive and presented in a readable format, with many user-friendly features, including single- rather than double-column format and an index that makes the material more accessible than in many other statutory supplements.
