

## Fatal Code: The Gilgamesh Killings

When France Broussard, a stressed-out Fintech product manager, arrives at her office she expects normal. Instead she finds the body of her murdered colleague. But within hours of beginning his investigation, the detective on the case, Duke LeJeune, discovers that another of Frances coworkers is dead. As Duke probes, he uncovers stealthy thefts of proprietary software and exposes secrets that the senior executives have tried, probably illegally, to hide. And suddenly France is his prime suspect. But when France disappears Duke needs to rethink the entire case. Then the danger explodes and Duke soon learns that the ruthless killer will stop at nothing even mass murder-- to prevent him and his team from discovering the full scope of his crimes.
