

How I Met The Beatles: (And How They Broke My Heart)

HOW I MET THE BEATLES (And How They Broke My Heart) takes place during the British Invasion in 1964. It is a fictitious account of a real issue that today's kids face—idol worship in the entertainment industry. It is meant to appeal both to Christian and secular audiences, and to adults and children in order to precipitate inter-generational discussions. It also contains a multicultural element, as the Casey family forms friendships with a Hispanic-American family. The main character, twelve-year-old Priscilla Casey, becomes enamored with The Beatles. She launches a number of plots to meet them. She convinces her parents to open a dude ranch that doubles as a shrine to The Beatles. The Fab Four hear about it and arrive at the ranch for a photo shoot. But Priscilla soon realizes they are not what they appear to be, and her fantasy world crashes around her. An exciting, fast-moving journey that's spelled F-U-N.
