

Interloper: The Perfect Switch

After the death of her mother, Sarah, and the unexpected passing of her beloved grandmother, Anne Stewart was returned to her father and step-mother. There was no other choice, but to Jack and Cathleen the young child was in the way, so they concocted a plan to erase her. They shipped little Anne off... alone.... to another country, knowing full well what lay ahead of her. They ensconced their own daughter, whom they decided to call Anne too, in her place. That maneuver gave them immediate access to Annes inheritance, without condition. They pulled off the perfect switch. Their Anne lived Anne Stewarts life, as if it were her own. ...Until one fateful night when a knock on her door told her that the other, the real Anne, had returned!
