

International Arbitration

International Arbitration introduces students to the primary concepts necessary for an understanding of arbitration, making use of illustrative case examples and references to legal practice throughout. This text offers a comprehensive overview of the subject for those new to arbitration, covering both commercial and non-commercial topics and focusing on the fundamental principles of arbitral practice. Making use of a unique two-part structure in each chapter, International Arbitration provides a clear and simple statement of rules, followed by detailed discussion of the ideas underlying those rules, illustrated with relevant case examples. Designed with students of arbitration in mind, this text provides both a clear introduction to the subject and a comprehensive course text that will support students in their preparation for exams and practical assessments.
