

# Mandala Coloring Book

Mandalas are highly therapeutic, as the symbolism and colors can be read to assess an emotional state, helping you to go deeper and look into the representation of your hidden psyche. They can help develop wholeness and integration of the soul as you heal. They give a focus and positive intention to be used in visualization therapies for healing, physically, mentally, emotionally, and spiritually. Put simply, a mandala represents the whole person, the past, present, and future contained in a catechism of symbology. This is a coloring book to help the individual seeker discover more about his inner self.
