

Marcella (ITV Show) Series One Episode Guide

ITV's Marcella brought a chill wind from the frozen North to Monday nights leaving its 9 million viewers enthralled, unsettled and not a little perplexed. Nordic noir master Hans Rosenfeldt served up the treat that did anything but play by the rules. Heroically batshit, it followed highly strung detective Marcella Backland back on the job after 12 years raising a family as she chases after a prolific and vicious serial killer. Sparring with hostile colleagues, her estranged husband and an old foe Marcella must piece together the clues even as she loses her mind. Exactly how culpable is she in the killings? Should she be investigating herself? TV critic James Donaghy is your guide through the labyrinthine first series. Every twist, red herring, fakeout and foot chase lovingly recapped for your reading pleasure.
