

Masters of Sex TV Series Season One Episode Guide

Showtime TV series Masters of Sex bravely placed itself between the twin stirrups, shone a medical flashlight up the dark moist corridor of scientific enquiry and gazed upon its majesty. Chronicling the real-life relationship between Doctor William Masters and Virginia Johnson the show took us back to the late 1950s a time before multiple orgasms, multiple partners and multiple sclerosis. A time when twanging your fraenum in public was considered a capital offence. A time when the two bravest people in the country were a couple who dared to confront our ignorance about sex by saying words like fanny, bumhole and perineum. The brilliant Masters is a Christopher Columbus of the cooch a committed, intrepid pioneer. In Johnson he has a fiery, whip-smart and fearless assistant. Together, they bury themselves deep in a heaving mass of rutting human bodies to carry out their research. Bravely battling the forces of academic conservatism and their own feelings for each other they meticulously measure, collect and classify the available data and write the book on the science of sex. TV critic James Donaghy is your guide. Taking you by the hand and leading you through the catacombs of discovery like some thoughtful porn cinema usher he breaks down the key points of each episode with the mind and manner of a true pervert.
