

Early Vernon (Spanish Edition)

El Manuscrito de los 20 \$, y el Manuscrito de los 3\$, fueron los primeros textos de Dai Vernon, escritos por Faucett W. Ross. En 1932 nacio el segundo hijo de Vernon, y como necesitaba dinero -en aquel tiempo Vernon se ganaba la vida recortando siluetas en los parques publicos- su amigo Faucett W. Ross le sugirio que escribiera un manuscrito con diez de sus mejores efectos. Asi nacio el libro Diez problemas con cartas, por Vernon. Se harian doce ejemplares, mecanografiados y autografiados, que deberian venderse al precio de 20 \$ (cantidad desorbitado para aquella epoca de la depresion americana. De aqui que, posteriormente, se le haya conocido tambien como El Manuscrito de los 20 \$). El exito fue tan grande, que rapidamente se hicieron mas ejemplares, sin indicar su numero y sin estar firmados por Vernon. No mucho despues -previa insercion de un anuncio en The Sphinx- aparecio el segundo manuscrito Cinco problemas de magia de cerca (despues conocido como El Manuscrito de los 3 \$). Treinta anos mas tarde, Faucett W. Ross reunio ambos manuscritos en un solo volumen, Early Vernon, este que tienes en tus manos. Una obra que hizo historia y a la que, en la presente edicion, hemos anadido otros trucos de aquella epoca, sacados de las antiguas revistas The Jinx y The Phoenix. Se trata, pues, una obra excepcional -casi de coleccionista- que te ayudara a responder a esta pregunta: Que hubiera sido de la cartomagia y la magia de cerca moderna sin los dos manuscritos de Vernon?.
