

Paper Magic

The life of a runaway can be hard, thought little miss Victoria Sommer as she walked down the street, her house fading from view. It was so cold, she just hoped theyd hurry up and miss her so she could sit by the fireplace again. That was the plan. A day away, maybe a few more, tops. But plans have a way of changing when you least expect it, and she found herself whisked away from life as she knew it and thrown into a strange town where everyone keeps secrets and nothing is as it seems. Where she came from, everyone knew her name and no one told her what to do. Where she came from, houses never sighed and a horseless carriage needed a motor. And paper cranes never, never flew. Where she came from, magic wasnt real, and nobody ever questioned that. But where she ended up, the little runaway soon found herself questioning almost everything shed ever known.
