

Contracts for the International Sale of Goods: Applicability and Applications of the 1980 United Nations Sales Convention

Contracts for the International Sale of Goods provides an examination of the United Nations Convention on Contracts for the International Sale of Goods (CISG). Extensively referenced, this volume focuses on three fundamental issues, which, due to added attention from courts and arbitral tribunals, are considered typical of CISG related disputes. These include the exact determination of the CISG's sphere of application; issues relating to the non-conformity of delivered goods; and the determination of the rate of interest on sums in arrears. This analysis will also help readers understand the broader context in which these issues are embedded, and ultimately illustrates how the CISG is interpreted and applied in different jurisdictions. A special course adoption price is available for an order of six or more copies from a university bookstore. Contact cs@brillusa.com or sales@brill.com.
