

# HIPAA@IT Essentials : Health Information Transactions, Privacy, and Security

HIPAA@IT Essentials was updated in January 2002, is 158-pages long, and is published perfect-bound. HIPAA@IT Essentials provides a distillation of the vital points from its companion volume HIPAA@IT Reference. The two volumes have a similar structure, but the Reference volume is twice as long because it goes into more background and examples. The Table of Contents remains as:

Transactions and Codes Administrative Simplification Transactions Codes and Identifiers Privacy Consent and Authorize Access and Amend Administration Others and Impact Security Compliance Life-Cycle Real-World Policy Computer Models Technical Mechanisms

The essential facts are here in HIPAA@IT Essentials.
