

Professor McDonalds Conveyancing Manual

(PUBLICATION FIRST MARKED AS OUT OF PRINT 11/11/03) Professor McDonalds Conveyancing Manual has become not only a well-established textbook for LLB and Diploma students but also an essential first source of reference for busy practitioners. This edition, which has been expanded and extensively updated, contains a wealth of material, including the creation of the new feudal estate, resulting rights of superior and vassal, securities and lease, including commercial leases, and transmission of the feu. There are useful sections dealing with such ancillary matters as authentication, capacity, stamp duties, town planning and local authority grants and permissions. The coverage of registration of title has been extended. There are styles illustrating a typical conveyancing transaction, including a series of writs in a specimen progress of titles, missives, and registration of the title following thereon, and a style for an agricultural lease. Previously a T & T Clarke publication.
