

Clearing House

Clearing House describes the clandestine world of international money laundering taking place today in the streets of America, the souks of Cairo, Dubai and Peshawar and the cities of Europe, Latin America and Asia. Whether the purpose is to purchase illicit drugs, evade tax, support a crooked politician or fund a terrorist cell, the tools and techniques are disturbingly similar. The novel develops through the actions of two protagonists - a talented entrepreneur linked to a New York crime syndicate and an innocent banker who finds himself caught up in the scheme. The authors familiarity with New York City, Europe, Asia and the Middle East provides a rich foundation for scenes that take place throughout the world. Enter the world of Clearing House where the battleground is global, the financial reward is limitless and the playing field is the business of international banking itself.
