

Big Sky Theory (Ch. 7) (Chapter 7)

Check out this thrilling new novel being released in individual chapter format by debut author Jackson River. Big Sky Theory plays out across many interrelated lives and plot lines, and is a story of greed, betrayal, and financial mischief at the highest levels. When banker David Martin finds out that his bank is scheduled to be audited by the U.S. government he suddenly realizes that the multi-billion dollar position he has built in defaulted Russian corporate debt and held in a secret offshore account threatens to bring down not only his bank but the legacy of his father and grandfather. Cat, an investment banker with Goldman Sachs, is the only one he can trust, but with former top KGB agent Viktor Gulenko at the helm of the Russian conglomerate whose debt Martins bank has acquired, his plight becomes even more dangerous. David will stop at nothing to save himself and everything that he has worked for, as events potentially swirl out of control around him.
