

## All Thats Left Unsaid

A gripping psychological suspense set on the shores of Italy. All my life, I waited for my mothers affection. Now I must compete with a dead woman. When Harriet Taylor learns her mother once lived in Italy, a secret kept for thirty years, she accepts the challenge to determine if the remains known only has the Positano Skeleton belong to her mothers long lost friend. Yet how can she probe old secrets when she doesnt speak the language and no one wants to talk to a foreigner about the skeleton or the past? Then a homeless man hands her a photograph and she must decide how much she will risk to discover the truth.... Because a mothers silence can be deadly. Praise for Rowena Holloway plenty of surprises and a very clever twist at the end the final scene brought me to tears. Sandy Vaile, author of *Inheriting Fear* a spectacular story in every sense of the word - as dramatic and as breathtaking as the setting of Positano, on Italys Amalfi Coast. Jenn J McLeod, author of *House for All Seasons* This was a great mystery that kept you guessing to the very end! I was never able to figure out who was lying and who was telling the truth. Everything all came together nicely in the end. Amy, reader Loads of twists and turns. Love the flavours of Italy. Susan G, reader This was a fabulous, on the edge of your seat read. Loads of gorgeous, beautifully written detail and a fabulous cast of well written characters. Tamara M, author of *Harrington Trilogies*
