

Artist/Artshow

At their best, art galleries and exhibitions are able to open viewers senses and create a feeling of ambiance, curiosity, and even sacred space. Exhibition posters can capture the imagination, help to create anticipation, and offer a glimpse of what one can expect to see. Artist Exhibition examines the display, presentation and promotion of artists works around the world. By sharing works on and off the gallery walls, their transformation from sketch to object through innovative framing, lighting and placement, is remarkable. It provides extensive case studies that share perspectives from curators, viewers and artists showing how their works were successfully presented and promoted.
