

A String of Ghastly Murders... An Ancient Indian Legend... Deep in the Alaska wilderness someone or something haunts abandoned Indian villages. The surprising murder of two archeological experts is just the beginning of a mystery which stretches across the islands of Southeast Alaska, and raises the burning question: Why? Now, its up to Alaska Game Warden Cody OKeefe-a survival expert well adapted to the unforgiving terrain-to figure out whats going on. With no GPS, satellite maps or cell phones, its just him and his police skills against the frigid forest and a mysterious killer. But when more bodies turn up showing a disturbing connection, OKeefe faces the possibility that hes tracking an adversary far more dangerous than previously thought. Uninterested in riches, its after blood! What follows will pit OKeefes understanding of native mythology and spirituality against traditional concepts of detective work and reality. But as he cracks open long-buried secrets, hell need to follow every possible lead, no matter how improbable. Because in this high-stakes hunt, one misstep can spell the difference between life and death-including OKeefes.
