

Skin and Bones

There are plenty of ways to die in a place like Carver Isle, Washington. There is blood, there is sweat and there is soil, and there are the leaves that wither and fall from the trees, crunching underfoot as they're raked into orderly piles. Fall is never anything more than a season in the small Washington town of Carver Isle - until the first child vanishes. None of them could have known what lay in wait for them, crouched at the end of that darkened hallway of a year. It began just two days after the Twin Towers fell, first with one missing child, and then another. When Parker Kelly returns to Carver Isle, she wonders if her disturbed cousin is involved. After confiding in FBI Special Agent Ash, she realizes that the truth lies buried deep in her past. Together, Parker and Ash must solve a puzzle of deceit and manipulation, exhuming secrets both would rather leave undisturbed.
