

# Student Workbook And Study Guide: Used with ...Heiman-Basic Statistics for the Behavioral Sciences

Revised and closely integrated with the text, includes in each chapter a review of objectives, terms, and formulas; a programmed review; conceptual and computational problems (with answers); and a set of multiple-choice questions similar to those in the Instructors Resource Manual. A final chapter called Getting Ready for the Final Exam facilitates student integration of the entire course. The workbook can be ordered separately or shrink-wrapped with the textbook to form a package.
