

The Headhunters Daughter: A Novel (Belgian Congo Mystery)

Tamar Myers returns to Africa in *The Headhunters Daughter*, the second book in her wonderful mystery series set in the Belgian Congo in the mid-twentieth century—a riveting and atmospheric follow-up to *The Witchdoctors Wife*. Raised in the Congo herself, the child of missionaries, Myers uses her intimate knowledge of the people, the culture, and the landscape to add richness to this stunning story of an abandoned infant raised by a tribe of headhunters—a masterful mystery that fans of Alexander McCall Smith and *The #1 Ladies Detective Agency* will adore.
