

## The Bedside, Bathtub & Armchair Companion to Shakespeare (Bedside, Bathtub & Armchair Companions)

This volume takes readers into the wonderful world of the Bard. For scholars, theatre lovers, students - everyone - this book wraps nearly 400 years of Bardology into a concise package. The authors examine the whole dramatic canon, play by play, including works of questionable authorship. The long poems and sonnets are also covered. The book includes inside stories on theatre and film productions, alternate interpretations of the plays, Shakespeares status around the world, the clubs and societies, the mysterious life, even the question that has plagued critics for 100 years: whether Shakespeare wrote the works attributed to him.
