

Script Planning: Positioning Your Script for Television and Film

Discusses the business of screenwriting for the writer new to film and television. Placing the writer in the position of producer, the text covers the creation of a property, and its presentation and marketing. Provides a systematic approach to getting your script produced. Through previsualization, preplanning, and market evaluation, you will learn how to define a subject, fit it into the marketplace, and when and to whom to present a proposal. A practical roadmap and reference tool, Script Planning provides financial strategies, sources of support, a development process overview, film and television genre categories, major market classes, and Writers Guild parameters. In addition, this book details the roles of technology, agents distributors, syndicators and exhibitors.
