

The Last Pilot

The Last Pilot begins in the bone-dry Mojave Desert during the late 1940s, where US Air Force test pilots are racing to break the sound barrier. Among the exalted few is Jim Harrison: dedicated to his wife, Grace, and their baby daughter. By the 1960s, the space race is underway, and Harrison and his colleagues are offered a place in history as the worlds first astronauts. Jim is faced with the decision of whether to accept his ticket to the moon and at what cost.
