

## The Stone Cutter Genius, A Legendary Tale

NO SON OF MINE SHALL BECOME A STONE CUTTER, yells Lodovico Buonarroti as he strikes his twelve-year-old son, Michaelangelo, sending him flying across the room. And so begins this legendary tale of the Colonna family as they travel through Italy in the steps of Michaelangelo, the Stone Cutter Genius. Thinking only to teach his class about Michaelangelo's life and art, Arthur Colonna instead learns about the legend of the Magi ring and finds himself in the center of a centuries-old feud. Stone Cutter Genius is a sweeping tale of Renaissance political intrigue, murder, and mystery, brought into the current day and met head-on by the faith, hope, and love of the Colonna family. A must-read for all historical fiction fans.
